

School of Interior Design

About the Institute

Our Interior Design programmes are structured as a progressive learning pathway that allows students to move from foundational design skills to advanced professional expertise in interior design, spatial planning, visualization, and design technology.

Students begin with a foundation certificate programme and progressively develop advanced capabilities in space planning, building materials, digital interior design, 3D visualization, AI-powered design tools, sustainable design, and interior design business management. Throughout the programmes, students also participate in Advanced Exposure Sessions, which introduce them to specialised design areas beyond the core curriculum, helping them explore emerging career opportunities in interior design and the built environment.

Professional Certificate in Interior Design

6 months

The Professional Certificate in Interior Design and Space Planning introduces students to the fundamentals of interior design, spatial planning, materials, and visual representation.

Students learn how interior environments are designed through the understanding of design principles, building materials, interior construction basics, and graphical representation techniques.

The programme focuses on developing foundational skills in design thinking, spatial awareness, and interior visualisation, making it an ideal starting point for students exploring careers in interior design.

What You Will Learn

- ✔ Drawing and graphical representation for interiors
- ✔ Fundamentals of design and spatial
- ✔ Understanding building materials and finishes
- ✔ Model making and material exploration
- ✔ Interior space planning fundamentals
- ✔ Market survey and material sourcing
- ✔ Interior construction basics

Skills You Will Develop

- › Interior sketching and graphical representation
- › Space planning and layout design
- › Understanding interior materials and finishes
- › Basic model making and spatial
- › Creative problem solving in interior spaces

Career Pathways

- ✔ Interior design assistant
- ✔ Furniture design assistant
- ✔ Interior styling assistant
- ✔ Interior design studio assistant

Diploma in Interior Design

1 Year

The Diploma in Interior Design expands students' understanding of interior design by combining traditional design education with modern digital and AI-powered design technologies. Students learn how to design functional and aesthetic spaces using space planning principles, interior construction knowledge, digital interior design tools, and concept development techniques. The programme prepares students to develop interior design proposals and presentations using contemporary design tools.

What You Will Learn

- ✔ Drawing and graphics for interior representation
- ✔ History of interior design and design evolution
- ✔ Fundamentals of design and spatial planning
- ✔ Building materials and market survey techniques
- ✔ Interior construction and building systems
- ✔ Surface embellishment techniques
- ✔ Digital interior design tools and visualization
- ✔ AI tools for interior design
- ✔ Interior design concept development
- ✔ Site survey and spatial analysis
- ✔ Interior design studio projects
- ✔ Portfolio development

Skills You Will Develop

- Interior layout planning and spatial design
- Interior concept development and visualization
- Digital interior design presentation
- Understanding interior materials and finishes
- Design documentation and site analysis

Career Pathways

- ✔ Interior design assistant
- ✔ Residential interior designer
- ✔ Interior styling consultant
- ✔ Design studio associate
- ✔ Interior visualization assistant

Advanced Diploma in Interior Design and Space Planning

Generative AI for
Creative Development

2 Years

The Advanced Diploma in Interior Visualization and 3D Rendering focuses on developing advanced skills in interior visualization, design development, and professional design documentation. Students learn how to transform interior concepts into realistic visual presentations using 3D rendering tools, digital design software, and working drawings. The programme also introduces specialized interior design sectors such as residential interiors, hospitality interiors, and interior branding.

What You Will Learn

- ✔ Building services and interior systems
- ✔ Furniture working drawings and technical
- ✔ Interior working drawings and construction
- ✔ Interior design studio projects
- ✔ Residential interior design
- ✔ Hospitality interior design
- ✔ Surface embellishment techniques
- ✔ Marketing principles for design businesses
- ✔ Interior branding and identity design
- ✔ Ai applications in interior design business
- ✔ Social media marketing fundamentals
- ✔ Portfolio and design presentation development
- ✔ Digital interior design and 3d visualization

Skills You Will Develop

- Professional interior design visualization
- 3D rendering and digital presentation
- Furniture and interior technical drawings
- Interior concept development and storytelling
- Branding and marketing for interior design studios

Career Pathways

- ✔ Interior designer
- ✔ Interior visualization specialist
- ✔ Residential interior designer
- ✔ Hospitality interior designer
- ✔ Interior styling consultant
- ✔ Interior design content creator

AI, Immersive
Technologies &
Professional Practice

Professional Diploma in Interior Design and Business Management

3 Years

The Professional Diploma in Interior Design with AI and Immersive Technologies prepares students to become industry-ready interior designers capable of working across design, technology, and business domains. Students learn advanced concepts in lighting design, modular systems, landscape design, sustainability, digital design technologies, retail analytics, and interior design entrepreneurship. The programme integrates AI design tools, immersive visualization technologies, and interior design business strategy to prepare students for global design careers.

What You Will Learn

- ✓ Interior lighting and acoustics
- ✓ Modular interior systems and furniture design
- ✓ Professional practice in interior design
- ✓ Landscape design and environmental planning
- ✓ Specialized building services
- ✓ Digital interior design technologies
- ✓ Green interior design studio
- ✓ AI in creative media and design
- ✓ Retail analytics and design forecasting
- ✓ Freelancing and interior business management
- ✓ Startup lab and business plan development
- ✓ Professional portfolio and career strategy

Skills You Will Develop

- Professional interior project development
- Lighting and spatial experience design
- Sustainable interior design solutions
- Interior entrepreneurship and management
- Advanced digital design visualization
- Professional portfolio and personal branding

Career Pathways

- ✓ Landscape designer
- ✓ Residential interior designer
- ✓ Commercial interior designer
- ✓ Interior design consultant
- ✓ Interior styling specialist
- ✓ Lighting design consultant
- ✓ Design studio manager
- ✓ Exhibition and retail space designer
- ✓ Interior visualization and 3D rendering specialist
- ✓ Modular kitchen and furniture designer
- ✓ Set designer for media, events and entertainment
- ✓ Sustainable interior design consultant
- ✓ Interior design project coordinator
- ✓ Interior branding & experience designer
- ✓ Interior design entrepreneur
- ✓ Studio founder

Skills You Need to Become a Successful Interior Designer

Interior design blends creativity, technical knowledge, and problem-solving. Successful designers understand space, materials, and user experience. To build a strong career, students need design, technical, digital, and communication skills developed through studio projects, practical assignments, and real-world learning.

-  Creative Thinking and Design Ideation
-  Space Planning and Spatial Awareness
-  Knowledge of Materials and Construction
-  Visual Communication and Design Presentation
-  Digital Design and Visualization Skills
-  Technical Accuracy and Design Detailing
-  Problem-Solving and Project Thinking
-  Client Communication and Collaboration
-  Business and Entrepreneurial Understanding
-  Professional Practice and Industry Readiness

Industry Connect that Leads to Successful Placements

Students of our Interior Design programme are prepared to explore opportunities across leading interior design firms, architecture studios, furniture brands, retail design companies, and space planning consultancies. Through portfolio development, practical exposure, site visits, and career guidance, students are equipped to pursue internships and placements with organizations across the interior and spatial design industry. The programme helps students build professional pathways in residential design, commercial interiors, furniture design, exhibition design, visual merchandising, and space styling sectors.
